### Written Report

*Olena, we have seen your confidence in speaking English grow so much, especially this past month. Thank you for your courage and efforts you have made in English class and with your tutor. I do not think you realize how important you were in our classes and how much you contributed. I am so grateful for the unique talents you brought to the class. Remember, that though it is scary, the best way to improve your language skills is to interact with others - just like meeting with Cami helped you to improve your listening and speaking abilities. When you go home, I suggest you find as many opportunities you can to interact with other people in English, whether online or in person. You are incredible, Olena. Best of luck with everything.*
